

**Data sheet****Hydraulic data**

<b>Maximum operating pressure <math>P_N</math></b>	10 bar
<b>Min. fluid temperature for HVAC applications <math>T_{min}</math></b>	0 °C
<b>Max. fluid temperature for HVAC <math>T</math></b>	80 °C
<b>Min. ambient temperature <math>T_{min}</math></b>	0 °C
<b>Max. ambient temperature <math>T_{max}</math></b>	40 °C
<b>Max. permitted total water hardness</b>	3.57 mmol/l (20°dH)

**Materials**

<b>Pump housing</b>	Stainless steel
<b>Impeller</b>	PPS-GF40
<b>Shaft</b>	Stainless steel
<b>Bearing</b>	Carbon-graphite

**Installation dimensions**

<b>Pipe connection on the suction side <math>DNs</math></b>	DN 32
<b>Pipe connection on the pressure side <math>DNd</math></b>	DN 32
<b>Port-to-port length <math>L_0</math></b>	220 mm

**Motor data**

<b>Energy efficiency index (EEI)</b>	0,18
<b>Mains connection</b>	1~230 V, 50/60 Hz
<b>Rated power <math>P_2</math></b>	0,13 kW
<b>Rated current <math>I_N</math></b>	1,1 A
<b>Min. speed <math>n_{min}</math></b>	750 1/min
<b>Max. speed <math>n_{max}</math></b>	3550 1/min
<b>Power consumption <math>P_{1 min}</math></b>	7 W
<b>Power consumption <math>P_{1 max}</math></b>	160 W
<b>Interference emission</b>	EN 61800-3;2004+A1;2012 /residential area (C1)
<b>Interference immunity</b>	EN 61800-3;2004+A1;2012 /industrial environment (C2)
<b>Speed control</b>	Frequency converter
<b>Insulation class</b>	F
<b>Protection class motor</b>	IPX4D
<b>Motor protection</b>	Internal protection overheating and overcurrent
