|------|--|--|--|--|--|--|
| Qty. | Description  |  |  |  |  |  |
| 1    | The motor is a totally enclosed, tolerances comply with IEC 6003   | an-cooled motor with principal dimensions to IEC and DIN standards. Electrical   |  |  |  |  |
|      | The motor efficiency is classified as IE3 in accordance with IEC 60034-30-1.   |  |  |  |  |  |
|      | The motor has thermistors (PTC sensors) in the windings in accordance with DIN 44081/DIN 44082. The protection reacts to both slow- and quick-rising temperatures, e.g. constant overload and stalled conditions.                            |  |  |  |  |  |
|      | Thermal switches must be connected to an external control circuit in a way which ensures that the automatic reset cannot cause accidents. The motors must be connected to a motor-protective circuit breaker according to local regulations. |  |  |  |  |  |
|      | The motor can be connected to a Grundfos CUE offers a range of   | a variable speed drive for adjustment of pump performance to any duty point.<br>variable speed drives. Please find more information in Grundfos Product Center.              |  |  |  |  |
