1.	Description					
	Hydro MPC-E 3 CRE 45-2-2					
	Note! Product picture may differ from actual product					
	Product No.: 99257761					
	Pressure booster system supplied as compact assembly according to DIN standard 1988/T5.					
	All pumps are speed-controlled.					
	From 0.37 to 11 kW, the booster system is equipped with CR, CRE, CRI, CRIE pumps with electronically commutated permanent-magnet motors with extremely high efficiency. The total efficiency of the motor including the					
	frequency converter applies to IE5 level in IEC60034-31.					
	From 15 to 22 kW, the booster system is equipped with CR, CRE, CRI, CRIE pumps with motors with integrated frequency control. The total efficiency of the motor including the frequency converter is better than the IE3 level in					
	IEC60034-31, even though this standard only applies to the motor.					
	* Hydro MPC E maintains a constant prossure through continuous adjustment of the speed of the number					
	 Hydro MPC-E maintains a constant pressure through continuous adjustment of the speed of the pumps. The system performance is adapted to the demand through cutting in/out the required number of pumps and 					
	through parallel control of the pumps in operation.					
	* Pump changeover is automatic and depends on load, time and fault.					
	The system consists of these parts:					
	vertical, multistage, centrifugal pumps, type CRE 45-2-2					
	Pump parts in contact with the pumped liquid are made of stainless steel EN DIN 1.4301					
	Pump bases and heads are of either cast iron/stainless steel (CRI) or cast iron EN-GJS-500-7 (CR), depending on pump type; other vital parts are made of stainless steel EN DIN 1.4301					
	The pumps are equipped with a service-friendly cartridge shaft seal, HQQE (SiC/SiC/EPDM)					
	 * Two stainless steel manifolds to EN DIN 1.4571 * Stainless steel base frame to EN DIN 1.4301 up to CR 00: above CR 00 the number are placed on a 					
	 Stainless steel base frame to EN DIN 1.4301 up to CR 90; above CR 90 the pumps are placed on a galvanized I-Beam frame 					
	* One non-return valve (POM) and two isolating valves for each pump					
	 Non-return values are certified according to DVGW, isolating values according to DIN and DVGW Adapter with isolating value for connection of diaphragm tank 					
	 * Adapter with isolating valve for connection of diaphragm tank * Pressure gauge and pressure transmitter (analog output 4-20 mA) 					
	* Control MPC in a steel cabinet, IP54, including main switch, all required fuses, motor protection, switching					
	equipment and microprocessor-controlled CU 352.					
	Dry-running protection and diaphragm tank are available according to the list of accessories.					
	Pump operation is controlled by Control MPC with the following functions:					
	* Intelligent multipump controller, CU 352. Constant-pressure control through continuously variable adjustment of the speed of					
	each individual pump.					
	PID controller with adjustable PI parameters (Kp + Ti).					
	Constant pressure at setpoint, independent of inlet pressure. Soft pressure build-up (To prevent water hammer during startup).					
	On/off operation at low flow.					
	Automatic cascade control of pumps for optimum efficiency.					
	Selection of min. time between start/stop, automatic pump changeover and pump					

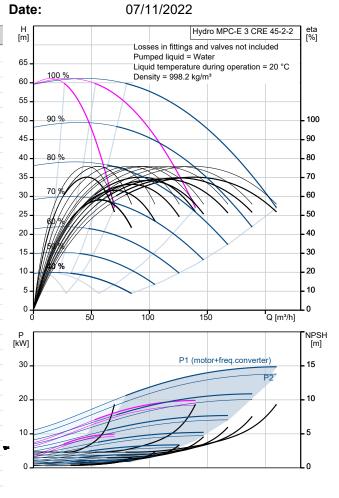

0	Description			
				ent idle pumps from seizing up.
		Possibility of stand		
		Possibility of backu	p sensor (redund	ant primary sensor).
		Secondary sensor	(Possible to switcl	h to another sensor/setpoint).
		Multi-sensor (up to	6 sensors to influ	ence the setpoint).
		Manual operation.		
		Possibility of extern	nal setpoint influer	ice.
		Log function.	•	
		Setpoint ramp.		
		Possibility of digital	remote-control fu	inctions:
		System on/off.		
		Max., min. or user-	defined duty	
		Up to 6 alternative		
				figured individually.
		Pump and system		
		Minimum and maxi		
		Inlet pressure.		
		Non-return valve m	ionitoring.	
		Motor protection.		16
		Sensors and cable		
		Alarm log with the		ngs/alarms.
		Display and indicat		
		Colour screen disp		
		Green indicator lig	nt for operating inc	lications and red indicator light for fault
		indications		
				or operation and fault.

Description	Value
General information:	
Product name:	Hydro MPC-E 3 CRE 45-2-2
Product No:	99257761
EAN number:	5713826112783
Technical:	
Rated flow:	162 m³/h
Max flow:	210 m³/h
Max flow system:	140 m³/h
Rated head:	46.4 m
Head max:	59.8 m
Main pump name:	CRE 45-2-2
Main pump No:	99072012
Number of pumps:	3
Non-ret. valve:	at discharge side
Materials:	
Manifolds:	EN/DIN 1.4571/ AISI 316 Ti
Installation:	
Range of ambient temperature:	5 40 °C
Maximum operating pressure:	16 bar
Manifold inlet:	DN200
Manifold outlet:	DN200
Pressure rating:	PN 16
Earth connection:	N, PE
System design:	D
Liquid:	
Pumped liquid:	Water
Liquid temperature range:	5 60 °C
Selected liquid temperature:	20 °C
Density:	998.2 kg/m³
Electrical data:	
Power (P2) main pump:	11 kW
Mains frequency:	50 / 60 Hz
Rated voltage:	3 x 380-415 V
Rated current of system:	63.6 A
Start. method:	electronically
Enclosure class (IEC 34-5):	IP54
Radio interference supression:	EMC DIRECTIVE(2014/30/EU)
Number of phases of main pump:	3
Controls:	
Control type:	E
Dry running protection, mechanical:	PRESSURE SENSOR 0-4 BAR
Tank:	
Volume of pressure tank:	12 I

Tank:		
Volume of pressure tank:	12	
Diaphragm tank:	Yes	
Others:		
Basis plant:	Y	
Net weight:	646 kg	
Gross weight:	685 kg	
Sales region:	Great Britain	
Config. file no:	98272350	
Config.file Control MPC:	98271947	
Config.file Hydro MPC:	98272014
